

Wooden white roof window with axis of rotation situated above its centre. Equipped with the air inlet and manually operated. It comes with the P2 single chamber anti-burglary glazing unit.

### Features

Technical parameters

Window construction

Heat transfer coefficient Uw [W/m²K]	1.3
Tightness class (air permeability)	Class 3
Waterproofness	E900
Wind load resistance	Class C5
Reaction to fire	npd
Acoustics Rw [dB]	35
Acoustics Ra1 [dB]	34
AcousticsRa2 [dB]	32
Increased resistance to moisture	Yes

Window colour	Pine white polyurethane lacquer resistant to moisture
Window flashing colour	Szarobrązowy RAL 7022
Window material	Aluminium
Number of seals [pcs.]	4
Material	Pinewood, vacuum impregnated
Air inlet	V40P
Material	Wood
Construction type	With raised axis of rotation

Equipment / appearance

Installation

Number of paint layers	3
Paint color	White NCS-S0502Y (similar to RAL 9010)
Paint type	Polyurethane

Kit / assembly	Window
Installation	<ul style="list-style-type: none"><li>• j;</li><li>• n;</li><li>• v;</li></ul>

Control

Opening

Opening angle for cleaning	160
Solar powered	No

Opening method	pivot
